PROFESSIONAL SUMMARY

Bid Manager and Senior Proposal Specialist with 8+ years of experience leading end-to-end proposal development and bid strategy across government, infrastructure, telecommunications, and commercial facility services sectors. Proven ability to manage the full RFP lifecycle—from opportunity sourcing and Bid / No-Bid evaluation through submission—while aligning scope, pricing, and operational strategy with leadership.

Extensive background supporting federal, state, and municipal procurements, with hands-on experience developing evaluation frameworks, compliance matrices, and executive-level decision materials. Adept at translating complex technical and operational inputs into structured, decision-ready outputs that drive efficient, high-quality submissions.

Brings additional depth from in-house public-sector experience at one of the nation's largest housing authorities, strengthening procurement governance, stakeholder alignment, and cross-functional coordination. Leverages AI-assisted tools, prompt structuring, and evaluation frameworks to enhance proposal quality, decision-making, and process efficiency.

PROFESSIONAL WORK EXPERIENCE

Quality Facility Solutions (QFS)

Mar 2026 – Present

Bid Manager

- Lead end-to-end bid management for facility services opportunities, sourcing, triaging, and evaluating 80–100+ RFPs/RFQs weekly and driving Bid / No-Bid decisions through executive-ready one-pager analyses.
- Translate complex RFP requirements into structured, decision-ready outputs, aligning scope, risks, pricing drivers, and staffing assumptions with leadership (CCO, Procurement) for rapid pursuit strategy.
- Build and submit complete RFQ/RFP packages (pricing sheets, compliance documentation, supplier forms, references), ensuring accuracy, responsiveness, and alignment with client requirements.
- Support pricing and risk strategy by coordinating with operations to validate cost structures (labor, supplies, frequency) and proactively flag key risks (e.g., prevailing wage, subcontracting, operational gaps).
- Streamline bid workflows by developing standardized templates and evaluation frameworks, improving speed, consistency, and clarity across proposal development.
