Certification Overview

This portfolio presents a verified record of professional certifications demonstrating my expertise in procurement, data analytics, AI systems, and organizational strategy. Each certification includes a digital verification link and summary of key competencies.

1. Google Project Management Professional

Organization: Google (Coursera)

Completion: Sept 2025

Verification: <https://www.coursera.org/account/accomplishments/specialization/KJ7T4MYTJHC5>

Key Learnings & Applications:

- Developed practical project management expertise in Agile, Scrum, and Waterfall methodologies.
- Gained skills in stakeholder engagement, risk management, and schedule optimization.
- Built capability to translate strategic objectives into structured project plans.
- Strengthened understanding of end-to-end project lifecycles and performance monitoring.

2. Global Procurement & Sourcing Specialization

Organization: Rutgers University (Coursera)

Completion: Oct 2025

Verification: <https://www.coursera.org/account/accomplishments/specialization/B9X6XYCKCDX4>

Key Learnings & Applications:

- Trained in strategic sourcing, supplier evaluation, and cost optimization techniques.
- Gained insight into contract management, negotiation, and performance measurement.
- Focused on ethical and sustainable procurement practices.
- Developed ability to manage supplier relationships and procurement planning.

3. AI-Powered Proposal Engineer (APPE)

Organization: Proposal Industry Experts (PIE)

Completion: Feb 2024

Verification: <https://verified.certifier.com/en/verify/63075765623501/?ref=email>

Key Learnings & Applications:

- Specialized in using AI tools to enhance proposal and document development workflows.
- Automated compliance reviews and optimized proposal writing for clarity and persuasion.
- Strengthened knowledge of proposal structures, evaluation criteria, and RFP response strategy.
- Applied process efficiency techniques to deliver structured, high-quality documentation.

4. AI Engineer for Data Scientists Associate

Organization: DataCamp

Completion: May 2025

Verification: <https://www.datacamp.com/certificate/AEDS0019623140274>

Key Learnings & Applications:

- Demonstrated proficiency in designing, evaluating, and deploying AI and machine learning models.
- Gained technical skills in feature engineering, data pipelines, and model performance evaluation.
- Strengthened understanding of applied AI for problem-solving across industries.
- Improved ability to connect data insights to actionable outcomes.

5. Data Literacy

Organization: DataCamp

Completion: Apr 2025

Verification: <https://www.datacamp.com/skill-verification/DL0039368256790>

Key Learnings & Applications:

- Built foundational understanding of data interpretation, visualization, and communication.
- Strengthened analytical thinking and data-driven reasoning.
- Learned how to translate complex datasets into accessible insights.
- Applied visualization techniques for effective decision support and reporting.

6. AI Fundamentals

Organization: DataCamp

Completion: Feb 2025

Verification: <https://www.datacamp.com/skill-verification/AIF0023145532407>

Key Learnings & Applications:

- Completed introductory training in machine learning concepts and data ethics.
- Learned key principles of responsible AI deployment and governance.
- Strengthened understanding of algorithmic bias and interpretability.
- Built conceptual knowledge for integrating AI into operational and business systems.

7. Google Data Analytics Professional

Organization: Google (Coursera)

Status: Jan 2026

Verification: <https://coursera.org/share/ff328443461139efabf9531b88972b46>

Key Learnings & Applications:

- Developed skills in data cleaning, visualization, and storytelling using SQL, Excel, and Tableau.
- Strengthened ability to analyze trends and communicate data insights effectively.
- Gained fluency in the analytics process from data collection to reporting.
- Built foundations in problem-solving with data and metrics-based performance tracking.

8. Cyber Security: Essentials for Governance, Risk & Compliance Specialization

Organization: Macquarie University (Coursera)

Completion: Jan 2026

Verification: <https://coursera.org/share/14b21554503c65264999c8ad4bdca6e4>

Key Learnings & Applications:

- Built foundational expertise in cybersecurity governance, risk assessment, and compliance frameworks.
- Gained understanding of how security controls align with organizational policy, regulatory requirements, and enterprise risk management.
- Developed fluency in evaluating cybersecurity risks from a non-technical, decision-maker perspective.
- Strengthened ability to support compliance reviews, audit preparation, and cross-functional security coordination.

9. Energy Production, Distribution & Safety Specialization

Organization: University at Buffalo (SUNY) (Coursera)

Completion: Feb 2026

Verification: <https://coursera.org/share/5152eb9a0c8013000f110c94bb6250b5>

Key Learnings & Applications:

- Developed high-level understanding of energy production systems, power distribution infrastructure, and safety considerations.
- Gained exposure to operational risks, regulatory oversight, and safety standards within the energy sector.
- Strengthened ability to contextualize infrastructure, facilities, and utility-related projects within public-sector environments.
- Built domain awareness to support strategic analysis, procurement, and project coordination in energy-adjacent initiatives.

Foundations of Project Management

Project Initiation: Starting a Successful Project

Project Planning: Putting It All Together

Project Execution: Running the Project

Agile Project Management

Capstone: Applying Project Management in the Real World

Sep 20, 2025

Michael Ngo

has successfully completed the online, non-credit Professional Certificate

Google Project Management

Those who earn the Google Project Management Certificate have completed six courses, developed by Google, that include hands-on, practice-based assessments and are designed to prepare them for introductory-level roles in Project Management. They are competent in initiating, planning and running both traditional and agile projects.

7 Courses

**Procurement & Sourcing
Introduction**

Procurement Basics

Strategic Sourcing

Supplier Management

Supply Market Analysis

Procurement Negotiation

**Strategic Procurement and
Sourcing Conclusions**

Oct 17, 2025

Michael Ngo

has successfully completed the online, non-credit Specialization

Global Procurement and Sourcing

Reviews the key aspects of a global procurement and sourcing, and the importance of procurement to the firm, its stakeholders and suppliers. Will start with a “proven” model for Strategic Sourcing, then move on to the very important topic of Supplier Management. In Supplier Management, you will learn how to select and evaluate suppliers, implement appropriate contracts, and how to mitigate risks. In Supply Market Analysis, you will learn and understand various tools and techniques to evaluate supply markets. Lastly, the course will cover the very important topic of negotiation. Outside reading will be provided to reinforce your knowledge. In addition, cases studies will be used to bring these learning to life, and assessment will be used to test your overall knowledge.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.

Cyber Security: GRC Part 1 - Governance

Cyber Security: GRC Part 2 - Risk Management and Compliance

Cyber Security: Incident Response - Theory to Practice

Jan 31, 2026

Michael Ngo

has successfully completed the online Specialization

Cyber Security: Essentials for Governance, Risk & Compliance

This certificate is awarded for successful completion of the Cyber Security: Governance, Risk and Compliance Specialization, developed by Macquarie University's Cyber Skills Academy. The program combines three courses Governance, Risk Management and Compliance, and Incident Response to equip learners with the knowledge and practical skills to design governance frameworks, apply global standards, manage compliance obligations, and lead effective incident response. Graduates are prepared to strengthen organisational resilience and safeguard digital trust in today's evolving cyber landscape.

Matt Bushby, Chief
Executive Officer,

Electric Power Systems

Natural Gas

Safety in the Utility Industry

Energy: The Enterprise

 University at Buffalo

 Stony Brook University

Feb 23, 2026

Michael Ngo

has successfully completed the online Specialization

Energy Production, Distribution & Safety

In this specialization, learners were exposed to the energy industry - including its structure, energy origins, constraints, pricing and regulations - as well as the impact of emerging disruptive technologies and renewable energies on the evolution of the Smart Grid. Learners developed a working knowledge of a modern electrical power system and the components, foundational electric power instruments and machinery, and the interactions between energy and the environment. They gained insights into the basic properties of natural gas, operations of its distribution, basic field skills required, the liquefaction of natural gas, and standard energy industry safety practices and OSHA regulations.
